

# 5 INTERLOCKING TETRAHEDRA (NET)

more on [mathigon.org/origami/](http://mathigon.org/origami/)

To create the five interlocking tetrahedra from their net, you should print this page five times on differently coloured paper.

Cut out all 20 shapes and make sure that all of the edges and flaps fold easily.

'Close' all 20 vertices into a 3-dimensional pyramid-like shape by connecting the largest flap as shown by the arrow above.

Now connect the 20 corners using the flaps, taking care to use the right colours...
